

From February 10-12, 2012, the MUSCULOSKELETAL ULTRASOUND COURSE will be held in Zagreb, Croatia, in the Department of Radiology, University Hospital "Dubrava".

The Course is held by eminent European experts, dr. Stefaan Marcelis from Belgium and dr. Tierd Jaeger from The Netherlands, and dr. Gordana Ivanac from Zagreb. The Course is part of the training in musculoskeletal radiology organized by European Society of Skeletal Radiology (www.essr.org). It lasts three days and consists of lectures and practical teaching on state-of-art ultrasound machines.

The number of attendees is limited to maximum of 24, so that maximum eight participants will be taught by one of three teachers in the practical part of the course. Each participant will receive individual training during the practical part of the course. All participants will receive the DVD with all lectures and practical courses, which will enable participants to rehearse after the completion of the course.

The registration fee is 500 Euro. Contact person is doc.dr.sc. Gordana Ivanac (e-mail: gordana.augustan@zg.t-com.hr), and all information about registration, accommodation and social event can be found on the website www.tiptours.hr/muscle2012.

The Croatian Society of Radiology strongly endorses this excellent course.
